

Modularity is the key to this design, both in terms of overall size of the fixture itself but also how boards can actively be added or removed from the frame system. Constructed from powder-coated steel with natural wood inlays and engineered to allow for product to be interchanged, this floor standing unit arrives to you with minimal assembly required and comes complete with a JELD-WEN branded hardware package.

Measuring 15.75 x 15.75", the hardware boards become mobile selling tools as they can be easily removed from the frame and become part of the selling experience – quick, easy and interchangeable.

As noted above, this product does require minimal assembly – please be sure to measure the entry point of your showroom taking into consideration the overall height, width and depth of this unit.

This can be built to form a KD unit – please call this out at the time of the order.
