Based upon a traditional design, the standard package of solid walls that make up the Element offering can be ordered in 11 different laminate colors with 4 standard finishes to enhance any store environment.

As an added extra, texture, cladding or faux lighting can be included onto these wall units, allowing for the finished look to better reflect the architecture of the surrounding area seen outside of the showroom environment.

Walls are hinged together using a proprietary indexing pin and receiver system, providing a safe and secure fastening method. Arriving fully assembled with product installed and graphics attached, this wall system has been designed for quick and easy set-up.
